Earl Russell, in a letter to Lord Lyons, dated the 15th ult. says that the fact of ships having successfully run the blockade does not prevent the blockade from being effective, and he argues that a national State ought to exercise great caution in regard to the de facto blockade, and ought not to disregard it, unless the power of the blockade and should be abused.

The memployed laborers in Liverpool were making demonstrations, but had been peaceably dispersed by the police.

There is one very healthful indication: it is not please the border State men. I am of the opinion that Mr. Lincoin has determined to shake off the Kentucky nightmare and be himself again. Let us recall the speech with which he commenced the memorable campaign of 1898: "A house divided against itself cannot stand. This country cannot exist permanently half slave and half free.

Do you see the point? Here are the lobster shells, the great houses with portices and parlors, (with folding doors, dear Madam,) and wide halls, and double front doors, and all that. Excellent shells for humanity of the lobster pattern. But for those are not lobsters, why may not we snalls let the lobster shells alone, and not try to live in a part of them? Such are the cases above, referred to. Now, the shell of a snall Is a beautiful thing, attracts the larger share of public attention. As usual, there is a diversity of opinion as to its construction—lis true intent and meaning. There is one very healthful indication: 44 — not please the border State men. Of you I ask to lay askle your party prejudices and passions. Let all your preconcived opinions be walved, as I shall speak to you from the very depth of my profoundest convictions, and I ask you to hear me as one sincer, unprejudiced patriot will listen to another. (Applause.) We are in open civil war. The rebellion against the constitutionally established anthorities of the United States has assumed the very largest proportions. Its avowed aim and object is to destroy the Union of these States and to secure for a portion of the people a reparate force against the instablishing a separate Government, which now defends thesif with armed force against the lawful authorities of things. It presents the nawful authorities of things, It presents to me a double necessity—first, to put down the rebels in arms, and then to restore the Union. The Tirst is a military problem, the second a political one. They are, in my ophalon, so different from each

For haif a century it has disturbed to itself your national domain; it has attempted to testablish its absolute rule and to absorbeven your future development; it has attempted to establish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to testablish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to testablish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to testablish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to establish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to establish its absolute rule and to absorbeven your future development; it has disturbed the peace of this Republic; it has arrogated to establish its absolute rule and to absorbeve you in the republic of the subdivision and defense of the apportionment, and underfective to the convention advanced the third, and been to force the subdivision of Senatorial districts in Cook county with which your readers are familiar already.

Mr. Buckmaster, chairman of the committee on apportionment, defended the report and promptly admitted that certain districts had been made up in a certain way because they were and would be beyond all question Democratic. Peterson with several gentlemen. Of Peterson was detailed to Inquire Into matter, who took Delancy in charge and ducted him beforethe Mayor. Mr. A. Cocroran was led out through the entrance of the building, and conducted officer Ledbetter to the Michannod depot, with the balance of the prisoners were under gut. Delancy stated to the Mayor that he known Corcoran in Ireland and in New Y that Corcoran was well acquainted his family, and sluce he had had no com ulcation with them for months past, he merely invited him (Corcoran) into the so to receive and bear to them a friendly le which he had written for the purpose, said further that he had said nothing would result in highry to the Southern Stand that nothing was further than that his intentions.

Mr. Scott confirmed his statement. BANKING BUSINESS, By the way, I know nothing richer in the whole flow of Southern braggadocio than the confident boastings of these secession papers issued the very day Fort Donelson fell. This same Nashville Essaer is as good an example as any. I sent on, some days ago, its very frank history of the disgraceful panic into which generals, legislators, preachers, soldiers, citizens, women and Governor fell alike on the Sunday of the surrender. Take the following from its issue of Saturday, the day before: E. W. WILLARD, Agent PUROPEAN EXCHANGE.

"There is a moral in this victory. After the ling meetful business over at Fort Henry, it is effechling to receive so important a solace. Willst it redeems our disaster it breaks the orce of the enemy's schievement.

"He has been driven back, pell mell. After lengthy engagement along our whole line, incrupted by the night, he availed himself of he darkness to make good his rereat. We suppose quite a glossell be put over his defeat by the Northean journals. 'Accomplished all he ame for — only a party of skirmlahers— 'made a useful reconnoissmee, and fell back in order,' de. But it can hardly be concealed last his onset upon Donelson met repuise bileh will inevitably scene his braggadocio, of far as his prodictions feats in this State are. TOPHOLAS MARC. "Nov. S.—Fight near Piketon, Ky., in which the Federals under Gen. Nelson were repulsed by Confederates under Col. Williams, the former losing 212 killed and about 150 wounded; the latter, 2 killed and 150 wounded. "As of course the reverend doctor believes this, what can the masses believe?

And new, having given some rebel history, I cannot avoid the temptation to conclude the exercises with a little rebel poetry. It is from the close of an oration delivered in Nashville by Col. W. N. Bilbo:

"Tennesse was the last Southern State to cut the Gordan-knot that bound her in a vassaige sife. The powerful industion of her people could no longer behold their brave constrymen struggling for independence and liberty, perishing upon her native heath. Abandoning the slow, cantions, uncertain motion of a scorpion girt by flame, she leaped at once into the bloody areas with a lion's bound. By the prempt action and patriotic devotion of her Legislature, the State armed and equipped, with immediate dispatch, thirty thousand of her deviated in the battern of their swords gioamed in the b Double-Threaded Machine Ever invested. Presentations.—A very pleasant gathering was that on Monday night at the house of Copt. W. H. Bolton, of Bolton's Battery. There is one thing certain, we have the most fifthy fluid ever graced by the fair name of water, supplied to us for dally use, and something must be done, and done quickly, to render it of a better quality, or we shall soon begin sadly to realize its effects in a plague or cholera season which will decimate our recompletion.

How shall it be done?

At the same place, on the same evening, Lieutenant James, also of Bolton's Battery, was the recipient of a sword and trappings from his fifends and acquantances. Both Captain and Lieutenant are deserving men and leave honorable and respectable connections and positions to serve their country. Their swords will be honored by the wearers, and the Union strengthened by both.

Interest Bag.—At about five o'clock yesterday morning, a man and his wife, quietly sleeping in their bed in their house, at or near the corner of Market and Jackson structs, were awakened by moans apparently near their window, which the husband was confident were the productions of divergines, but the eries of an infant. To satisfy his appears that he was correct, James arose in all the mysesty-of a tail fannel sight cap, and the flowing folds of a cotton night gown, and ellipping gautsids cried, "scall" "slicew" "gown!" At first the rumor ran that the deceased had shot himself with a pistol in a suddee fit of despondency at the receipt of a letter from a weman whose affections he had socured, and whom he had subsequently deserted. Them rumor had it that his partner had shot him on account of undue familiarity with his wife.
